Are you an Employee, Employer, Self Employed or a Contractor? A Parent, Consultant, Mentor, Coach, Trainer, Teacher, Police officer, Medical Officer, Instructor, Human Resources Manager, Therapist, Psychologist, Health Practitioner, Advisor, Counsellor, Healer, or provide assistance or advice, are you facilitating or creating change in any way, shape or form to developing others abilities and yourself?

Are You Influencing Others in Your Life On A Daily Basis, Even Without A Fancy Title?

Is your profession requiring you to effectively and ethically be supporting, coaching and influencing others to changing for a healthier and successful future?

***We Don't Grow Up And On Our First Day Of School,
Get Given A 'User's Manual For Our Brain,' or anyone else's Brain for that matter!
and yet such science exists, in a user-friendly format.***

A Science That Is the Magic Of NLP!

In some way we are all 'Changing Agents', because in our daily lives we are always influencing ourselves and others, some of us are instigating change more effectively and with more skill than others. Those who are more skilful are getting the rewards with more precision.

Some professions such as coaches, therapists, mentors, teachers, care givers, corporate consultants, and managers are requiring leaders to be influencing others on a professional level, so in actual fact they are all being the facilitator or change agent to influencing others for achieving greater outcomes.

NLP will introduce you to and begin assisting you in rapidly elevating your own skill level and effectiveness in building rapport, elevating your awareness of nonverbal body language and signs, being able to effectively be recognising a person's unique structure and being able to decode their unconscious thought patterns, beliefs and values and so much more for achieving successful outcomes.

NLP introduces you to and provides you with more tools that will enable you to easily and effectively work with improving and understanding yourself and others/clients, supporting your children as a parent, leading your team to become more productive, around their own hesitation, resistance, reasons, excuses, blocks, and limiting beliefs that are preventing them from moving forward, and creating a successful outcome.

***"NLP Is One of The Biggest Breakthroughs In The Technology
Of Achievement And Human Excellence".*** Time Magazine

NLP tools will assist supporting you in becoming more effective in Leadership roles, the art of Coaching, Consulting, Managing, Facilitating, Healing, Education and Parenting. You will more effectively be designing and creating future oriented solutions and outcomes.

Collective Intelligences Leadership Academy adds the How?

It is the **DOING in the training that is *Making the Difference.***

'What We Have to Learn to Do, We Learn By Doing'

- Aristotle

Collective Intelligences Leadership Academy

NLP is an evolving methodology, as you begin changing, things around you change ...

When you begin **applying the processing of NLP** to the **learning of NLP**, you learn how you can be utilizing these processes in your life so much quicker.

It really can be that simple - but only if you, and the people teaching you, really know what they're doing and have the skills to pass this on to you in a way that allows you to begin using these techniques with a thorough understanding of the **How, Why** and **What** are the key factors that will be making this work for you **Where** and **When**.

POWERFUL PROGRAMS for Implementing into Corporations and Businesses

NLP based Training has worked successfully over the last 45+ years, with many different businesses and organisations, helping supercharge areas for building successful teams, that are able to be successfully working together, more understanding of each other, becoming more productive, more motivated, communicating more effectively with each other, as well as being able to begin utilising their coaching skills into their team, achieving successful outcomes, building their training skills while always developing personally in their own lives.

Big Claims to Make? ... Sounding as Though It is Almost Too Good to Be True...

and yet if you could begin understanding really how your mind is working, finding a way to harnessing the power, would you be willing to begin learning how you can possibly do that?

Think about this for a Moment.

You did not grow up and on your first day of school being given a **User's Manual for Your Brain**, or anyone else's brain for that matter! And yet such science exists, in a user friendly format.

A science that is the magic of **How** and **What** NLP is and **why** it works in this way!

Yes, **The Magic** of getting over past hurts,

The Magic of identifying and eliminating all those old beliefs that have been contaminating your success professionally or personally,

The Magic of forging a great big compelling future and making it happen,

The Magic of implementing your knowledge,

The Magic of you being able to get into rapport with others,

working through conflicts, creating winning solutions in the ways you are negotiating, taking another person's point of view on things, and there is so much more.

We Use the Term 'Magic' In NLP To Speak About THE VERY STRUCTURE AND EXPERIENCE OF EXCELLENCE, BEHAVIOUR MODELLING that lies beneath the surface of your being, Out of sight though being able to add such a high value in your life.

So when you are admiring someone that is achieving highly, when they are doing something in a superb and truly wonderful way - from ways in **which** they are learning, **how** they are making wise decisions, seeming to always be very motivated and passionate in what they are doing, how when they are faced with challenges in their lives at how resilient they are to getting back up and keeping going, operating proactively regardless of what else is happening in their lives, managing how they are living their busy lives, being successful in making wealth, having the gift and are great at selling, etc. etc,

We know that **Each of Our Experiences Has A Structure**, that **We Can be Learning** and **Replicating** that magic. And that's what NLP is all about.

We can all read many books, watch many DVD's, listen to many cd's or mp3's where we are storing a lot of information, and still **not be getting the understanding** of how it can work and benefit you, and How it is really working, **NLP gives you the How?**

It is in the **DOING** and **EXPERIENCING** in the training that **Makes the Difference.**

'What We Have To Learn To Do, We Learn By Doing'

- Aristotle

Neuro Linguistic Programming (NLP) is effective –

NLP is used in many fields - Education, Business Management, Coaching, Therapy, Training, Health, Advertising, Sales, Marketing, HR Development, Training Design and Delivery, Politics, Psychotherapy, Entertainment, Presentations, Conferences, Board Meetings, in fact wherever and whenever people interact with each other.

**NLP Is The Study Of HOW PEOPLE DO WHAT THEY DO,
And HOW 'THEY BEST' ACHIEVE Their Success.**

Thank you, Lorna, for the great work you are doing in making available your professional NLP trainings to us here in Australia, where you put integrity first, and all your expertise and competency that you share so freely on all levels of your training. Having attended another NLP training prior, this has been a much superior experience for me, I received so much from this training, I have added so much more value, with the latest 3rd Gen NLP

I would highly recommend this NLP training for all levels in business - management, Leadership, customer relations, HR, and office staff. We have noticed better teamwork, and more productivity within the company. Personally, I have also grown and developed in so many ways.

Stephen. P. Melbourne

The NLP Practitioner has been so much more than I ever expected. The many applications that I am using in all areas of my life has me in awe, of the results I am achieving. I am looking forward to integrating all that I have learnt and returning for more trainings with Lorna Helen. Brisbane

Lorna's husband Jon, always says that she is the best kept secret, I agree. When I chose who to do my NLP with, I chose Lorna because of her honesty, integrity, and willingness to give me so much of her time freely to answer all my concerns. I have not been disappointed, her enthusiasm, excellent skill level, and content was so much more than was offered elsewhere. It has been so valuable for me in my personal life and work.

How others experienced and benefitted from their training

*Having previously completed a 7day NLP Practitioner with another company, I was confused and frustrated about how to apply the techniques in my life. I met Lorna and she gave me the time to ask questions and was able to share my concerns with her about not being confident using what I had learnt. I paid her for some mentoring and learnt so much, gaining a clearer understanding of the benefits of NLP. I assisted her on her last NLP training and was amazed at her generosity in sharing her unbelievable bank of knowledge, expertise and her willingness to be there totally for the participant until they had the understanding of how it works, there was no rushing through when we needed more time, even giving freely her time after the class for those that needed more time. I would highly recommend Lorna's NLP trainings, for value, integrity, with lasting benefits. **Stephen. Brisbane***

*I was referred by a Colleague, Dr Michael and completed the NLP Practitioner, and the LAB – Words That Change Minds, I now have a much clearer understanding of the way that I am thinking, making decisions and implementing what I have learnt in my medical clinic in Melbourne. I am communicating more effectively with my patients, my wife and my children. My family are appreciating the new me who has softened in being more open to listening to what they are sharing with me. It is 3 years since I did my trainings and have referred medical colleagues to pursue this for how it can lessen the stress us GP's often tend to hold on to. I have been a GP for 33 years and learnt so much more about myself and have become aware of how important it is for me to balance my life and put my needs sometimes first. Thank you for sharing your extensive NLP knowledge, also your compassion in a way that enhances all of your students, regardless of their background or qualifications, I am glad that I have been introduced to this field and know there is so much more to learn. **Dr John. Melbourne***

*Working in an engineering environment for most of my life, I have been amazed at the change in our environment between the engineers and the draughtsman since completing the NLP training, there is also so much more respect between the CEO's, management and contractors. I have personally achieved a much better understanding of individuals different communicating styles. **Bruce.***

As a CEO of a mining company I had been encouraged by a colleague to experience some NLP to become aware of how we all communicate differently - I was very sceptical, though I really appreciated my colleagues suggestion as I admired the way in which he could communicate so easily with everyone. On recommendation I attended the Brisbane NLP Practitioner over 4 months, and congratulate Lorna on her professionalism, passion, unlimited knowledge and her skill expertise in being able to facilitate the whole course in a way that was easy to grasp and made sense, my logical mind was challenged in so many ways and the priceless awareness of how my mind and body have been working against me in my relationships personally and professionally - this alone has made an enormous difference in my life. My communication with my staff has improved immensely with many more happy people acknowledging and appreciating each other, and I believe it is because I have made many changes with how I am now interacting. I recommend investing in this NLP for the benefits you will get from it. Thankyou Lorna for the great training, great venue, the amazing healthy food, look forward to more trainings in the future.

Kevin. Melbourne

My daughter 17 and I travelled from country Victoria to attend the NLP Practitioner over 4 months, it is the best thing I have ever invested in and being able to share it with my daughter was very special, it brought our relationship closer. I am an easier person to get on with and not as grumpy or opiniated and have so much more respect for others now. I recommend it to anyone who wants to add value to their lives, I paid for my son to attend the next training. I am a very proud Father seeing my daughter and son continue their trainings and completing the Master Practitioner with Lorna, and my daughter also becoming a trainer, who is now using the skills training in her fields of massage and yoga. I really recommend parents giving a gift to their children that will add immense value to their growth and development and give them skills that will allow them to face their challenges in life more confidently. **Tony. Victoria**

As a HR Manager i attended the NLP Training to really experience what all the hype about NLP was all about, I really enjoyed this and there was a lot of strategies that I experienced that will make a great difference in how I work. I will be putting into place a lot of new things that will implement a better working environment. NLP gives you all that you need to improve the way we do things, that will make a difference. Thankyou Lorna and Jon for providing the space for an enjoyable, and valuable training. I am taking away so many things that I can and will begin using immediately.

Greg. Brisbane

I am the 13th member of my family to do NLP training with Lorna, and really recommend her NLP Trainings. Going through my own challenges with a marriage break up my Mum recommend that I learn some NLP. I have got some tools now and a greater understanding of what I can do to live my life in a healthier way, and enjoy each day for what there is to experience. Lorna and her trainings have made a great difference to our entire family and how we now are able to relate respectfully to each other. I know I now have the tools to be able to go forward confidently. Thankyou. Thankyou. Thankyou.
